Absorbable Hemostat “TDM-621”
Product Registration Obtained in Colombia

The 3-D Matrix group is working towards commercialization of absorbable hemostat “TDM-621” globally. The company hereby announces that the subsidiary, 3-D Matrix Europe SAS., has received notification today on July 23rd that the medical device product registration approval in Colombia has been granted by the Colombian regulatory body, Instituto Nacional de Vigilancia de Medicamentos y Alimentos (INVIMA).

The group has obtained CE marking for the absorbable hemostat “TDM-621” on January 14, 2014. This CE marking can be leveraged by using it as a reference regulatory agency approval in various countries in Asia-Pacific and Latin America. The product can be commercially marketed once approval is obtained in each country.

With this medical device product registration approval, our commercialization activities in Colombia can start. The company is selecting the local partner to distribute “PuraStat[®]” through the partner to start commercializing by the end of this fiscal year.

This announcement does not influence the earning forecast of the company at this moment.
